9:00AM

COMMUNICATION
ADVISORY TECHNICAL
SUB-COMMITTEE

Door County Government Center
Chambers Room
421 Nebraska St
Sturgeon Bay, WI 54235

Technology Services is the Oversight Committee for Communication Advisory Technical Sub-Committee

AGENDA

1. Call Meeting to Order
2. Establish a Quorum
3. Adopt Agenda / Properly Noticed
4. Approve Minutes of the 2/12/2020
5. Public Comment
6. Old Business
 - 6.1 DCMC/First Net update
 - 6.2 Door/Kewaunee Dispatch Study
 - 6.3 LaSalle Park Cell Tower Proposal
7. New Business
 - 7.1 Broadband on Sunnyslope Tower
 - 7.2 Bay Electronics Contract
 - 7.3 Baycom Contract
 - 7.4 Washington Island First Net Resolution
 - 7.5 CIP Planning
 - 7.6 Radio Fleet Reprograming
8. Review Vouchers, Claims and Bills – None
9. Matters to be Placed on a Future Agenda or Referred to a Committee, Official, or Employee
10. Next CATS Committee Meeting Date: To be determined
11. Set Per Diem Code
12. Adjourn

In light of the declared emergency and to mitigate the impact of COVID 19 this meeting will be conducted by teleconference or video conference. Members of the public may join the meeting remotely or in person in the Peninsula Room (C121) first floor government center. *(Please note public in person has limited capacity and is on a first come first serve basis)*

To attend the meeting via computer:

Technology Services is the Oversight Committee for Communication Advisory Technical Sub-Committee

Call Meeting to Order

CATS Chairman Jon Koch called the February 12, 2020 meeting to order at 9:00AM

Establish a Quorum

Jon Koch, Pat McCarty, Dan Kane, Howie Hathaway, Aaron LeClair, Chris Hecht, Tim Dietman

Others Present: Jason Baudhuin, Jason Rouer

Adopt Agenda / Properly Noticed

Motion by LeClair second by Hathaway to adopt the agenda.

Approve Minutes of the 10/28/2019 Communication Advisory Technical Sub-Committee

Motion by McCarty second by LeClair

Approve Minutes of the 1/20/2020 Joint Public Safety & CATS Committee

Motion by McCarty second by LeClair

Public Comment

Doug Wimer commented on an issue the Town of Clay Banks has been having with cell phone coverage. The largest issues are around the LaSalle Park area. A tower at the intersection of County Road U and J would help according to Wimer.

Dietman mentioned that two First Net towers, which are ATT towers, are being placed close to that area to provide better coverage for ATT customers and public safety personnel.

Old Business

DCMC/First Net update

Kane briefed the committee on the current situation related to First Net and its implementation in the County. Sturgeon Bay Fire, Sturgeon Bay Police, Door County Sheriffs Office, and Door County EMS have all made the switch from Cellcom to First Net devices. Dietman mentioned that Door County Medical Center had done a WIFI study to be able to provide first responders with access to secure WIFI connectivity within their facility with the intent to be live by the end of this week. LeClair mentioned it has worked fairly well for the EMS crews with some holes still remaining in the north. McCarty stated that school liaison officers now have cell signal through the WIFI where they have not had it before.

Door/Kewaunee Dispatch Study

Kane briefed the committee on the background of the study as well as a summary on a meeting held on January 29th between Door and Kewaunee counties regarding the matter. Len Koehnen did a presentation at the January 29th meeting where the topic and an overview of the project were presented to the two Counties. Koehnen was asked to update a proposal for this project as it relates to only technology between the two counties.

FCC License Update

Hecht mentioned the petition for reconsideration has been filed with the FCC with the assistance of the law firm Keller and Heckman. The FCC noted that the petition contained the information that they were looking for. The FCC did have a follow up question on the coverage area with that license asking if the County used the system in the neighboring counties or is the extra coverage simply a buffer. Hecht mentioned that through Keller and Heckman they justified the coverage that the County does use the system in those areas. Hecht mentioned that according to Len Koehnen nothing may end up happening from the FCC for several months.

New Business

LaSalle Park Cell Tower Proposal

Baudhuin mentioned the challenges this area has had and continues to have with public safety communications. This was in a CIP in the past but did not make it through the whole process.

Hecht mentioned that it will be a worth a conversation if we need to switch to digital in the future as more towers would be needed for that switch.

Baudhuin said that data does exist on this subject and can be brought up at the next meeting.

McCarty made a motion to forward the proposal to the Public Safety Committee for consideration into the 2021 CIP. Seconded by LeClair. Carried by unanimous voice vote.

LCC Telecom Services Tower Proposal

Committee agreed that the proposal did not fall within the jurisdiction of the CATS committee and was no action was taken.

Update Alarm System Server

Baudhuin mentioned that the alarm system for County infrastructure should be looked at. The County would provide the hardware and Bay Electronics would provide the software and labor. Baudhuin mentioned the cost of the project would be around \$14,000 if done through Bay Electronics. Rouer stated this item could be placed on a maintenance schedule going forward.

Review Vouchers, Claims and Bills – None

Matters to be Placed on a Future Agenda or Referred to a Committee, Official, or Employee

Fish Creek Tower Site, Fiber Infrastructure and Microwave Backup, Resolution of Town of Clay Banks, CIP Projects, Door/Kewaunee Dispatch Study, DCMC/First Net, Egg Harbor Tower Update, State DOT Microwave Proposal

Next CATS Committee Meeting Date: TBD

Set Per Diem Code

Adjourn

Motion made by Dietman second by Hathaway to adjourn at 9:53AM.

NOTE: Minutes have not been approved by CATS Committee.

Respectfully submitted by: Dan Kane

Deviation from the order shown may occur

Members of the Door County Board of Supervisors and/or its sub-units may be in attendance at this meeting to listen and gather information. Notice is hereby given that the above meeting may constitute a meeting of the Door County Board of Supervisors or one of its sub-units. However no official action will be taken except by the Communication Advisory Technical Sub-Committee. .

Town of Clay Banks

RESOLUTION 19-04-01

Implement a Comprehensive Communications Plan

Whereas, the Town of Clay Banks cooperated with the Door County Economic Development Corporation in conducting a survey to gather information on the path to improving Cell Phone and Internet Service availability; and

Whereas, the Door County Economic Development Corporation goal is to develop a plan for countywide broadband coverage for each and every business and resident in Door County; and

Whereas, the results of our survey showed there are major breaches in cell phone and internet coverage's scattered throughout the Town of Clay Banks, with locations along the shoreline and below the bluffs being the most affected areas; and

Whereas, the Town of Clay Banks is aware the Southern Door Fire Department also experiences breaches in communications, under the Door County Communication System, when responding to emergency calls in these same prone areas; and

Whereas, proper communications is paramount for the safety and well-being of our citizens and those passing through, knowing that at anytime an emergency call from a cell phone or a communication from an emergency vehicle could save a life or protect property; and

Whereas, the present service for Cell Phone and Internet coverage in Door County is a mixture of either satellite or hit-or-miss communication tower construction. It is a 'Porcupine' approach to a problem that requires serious planning.

Now Therefore Be It Resolved, by action at the Annual Meeting for the Town of Clay Banks, the electorate present hereby calls on the County of Door to conduct a study and implement a Comprehensive Communications Plan that will provide broad coverage for Emergency, Cell Phone and Internet coverage for all areas and properties in Door County, and

Be it Further Resolved, the seriousness of the problem requires that the Comprehensive Communications Plan be approved and in place before there is any expansion to any present or new Emergency, Cell Phone or Internet Systems, and

Be it Further Resolved, that the Clerk for the Town of Clay Banks send a copy of this Resolution to the Door County Economic Development Corporation, the Door County Administrator, our County Board Representative and the Door County Unit of the Towns Association requesting their assistance in advancing this effort.

I attest this Resolution was unanimously passed
at the Annual Meeting for the Town of Clay Banks
on April 18, 2019.

Jessica Bongle, Clerk

May 14, 2020

Door County Information System
Attn: Jason Rouer
421 Nebraska Street
Sturgeon Bay, WI 54235

Subject: Annual Radio System Maintenance Contract

Mr. Rouer:

Per the request of the county, Bay Electronics submits the following pricing for annual maintenance of the radio communication system. This proposal encompasses the entire network as a whole; radio infrastructure, radio dispatch infrastructure and network/microwave infrastructure. Bay Electronics would like to propose a 3-year agreement for the radio system maintenance, being able to offer a 3-year agreement, Bay Electronics is able to offer the same annual maintenance cost as 2020, for the years 2021-2023. We hope this proposal helps with Door Counties' budget planning as there will be no increase from previous maintenance contracts.

- **2021-2023: \$110,492.00/annually**
 - Annual contracts will be billed monthly on the 1st of each month = \$9,202.67/month (current payment arrangement)

As part of this maintenance contract, the county will receive the following service and support from Bay Electronics:

- System Spares
 - Bay Electronics will maintain a complete spares part inventory for system, currently Bay Electronics maintains spare parts for approximately 90-95% of the entire system
- Annual Maintenance Inspection and Report
 - Repeater/Receiver Testing
 - TX Frequency Error, Coded Squelch Modulation, Local Voice Modulation, Dispatcher Voice Modulation, Console Tone Modulation, Power Output (Chassis/After Filter), Reflected Power, Receiver Sensitivity, Tone Level, Local TX Descense, Site Noise
 - Antenna Line Sweeps
 - Battery Maintenance and Capacity
 - Microwave Quality and Performance
 - Site Clean-Up as necessary
- Response Time as Dictated by Schedule (PLEASE NOTE! Bay Electronics makes best effort to respond to issues regardless of category as quickly as possible, in most circumstances less than 20 minutes)
 - Category A: 365/34/7
 - Category B: Monday – Friday, 8 a.m. – 4:30 p.m
 - Time and Material: As Needed

A complete list of the equipment and maintenance schedule is attached. If there any questions in regards to this proposal, please feel free to contact me at your convenience. Thank you!

Respectfully submitted,

Bay Electronics, Inc.

Town of Washington

Resolution 2020-11

Resolution to FirstNet to expediate service to Washington Island

WHERAS, FirstNet is a \$6.5 billion network contract through AT&T to provide a nationwide public safety network;

WHERAS, Door County was included in the network start up and went "live" in 2019;

WHERAS, Washington Island, which is a municipality in Door County, was left out of the Door County network, causing issues for emergency responders coming to the island;

WHERAS, emergency responders responding to the island have NO communications through computers and cell phones, creating a dangerous situation as responders will be unable to communicate with one another except through their radios;

WHERAS, Washington Island is the home of 720-year-round residents with a population increase to approximately 2,500 people on a daily basis during summer months including tourists;

WHERAS, Washington Island hosts more than fifty (50) events throughout the year, had one hundred eleven (111) medical and fire calls for assistance in 2019, have seventy-five (75) enrolled in the island school, has more than one thousand eighty (1,080) residential and business properties;

WHERAS, FirstNet was offered a site on Washington Island for a tower site at no cost;

WHERAS, the failure of FirstNet and Door County to complete the installation to Washington Island has place the lives and safety of the residents and tourists visiting Washington Island, the first responders providing service to the residents, the Washington Island Police Department and deputies of the Door County Sheriff's Department in jeopardy.

THEREFORE, BE IT RESOLVED, the Town Board hereby requests that immediate efforts be made to expedite the completion of the Door County FirstNet network to include the Town of Washington at the earliest date possible.

ADOPTED: 5-6-2020

Richard Tobey, Town Chairman

Attest: Valerie Carpenter, Town Clerk
