

# COVID-19 INFO FOR BUSINESSES

Door County Health and Human Services

Public Health Division

**Public Health**

Door County

TESTING

# PCR

(Molecular)

**DIAGNOSTIC**  
for active infection

Gold standard

Nasal swab

# Antigen

**DIAGNOSTIC**  
for active infection

Nasal Swab

# Antibody

**NOT DIAGNOSTIC**  
Shows past infection

Finger stick or blood draw

# WHEN SHOULD I GET TESTED?

Showing symptoms  
of COVID-19

Been in close contact with someone  
that is positive

If having any symptoms or 7 -10 days after  
exposure

# I THINK I WAS EXPOSED TO COVID-19 AT WORK. WHAT SHOULD I DO?

## Next Steps:

close contacts of someone with COVID-19

- Follow these essential public health practices for **14 days since your last close contact** with someone with COVID-19.
- **Anyone who is a close contact of someone with COVID-19 should get tested.** If you test negative during your quarantine period, you will still need to complete your full 14-day quarantine before it is safe to go back to work or be around others.
- It is important to **self-quarantine** and **self-monitor** to protect yourself, your family, and your community.

## What does it mean to be a “close contact” of someone with COVID-19?

You are a “close contact” if **ANY** of the following situations happened while you spent time with the person with COVID-19 (even if they didn't have symptoms):

- Had direct physical contact with the person (e.g., hug, kiss, handshake).
- Were within 6 feet of the person for more than 15 minutes.
- Had contact with the person's respiratory secretions (e.g., coughed/sneezed on, contact with dirty tissue, sharing a drinking glass, food or towels or other personal items).
- Stayed overnight for at least one night in a household with the person.

### REMEMBER:

- Someone who is sick with COVID-19 can spread it two days before they show any symptoms.
- Not everyone with COVID-19 will have symptoms, but they may still spread it to others.

1. Tell your supervisor or employer **IMMEDIATELY**.
2. If you are a close contact you need to quarantine for 14 days from last contact with confirmed case.  
<https://www.dhs.wisconsin.gov/publications/p02598a.pdf>
3. If you have symptoms get tested immediately, if no symptoms wait 7-10 after last exposure for testing

# TESTING SITES

Door County Medical Center

Appointment required:

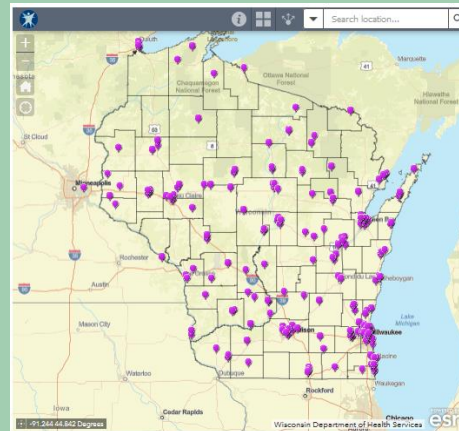

<https://www.dcmmedical.org/covid19>.

Sturgeon Bay Fire Station-Monday, December 7, 2020

Free drive through, no appointment needed

Find the nearest testing site on WI DHS website:

<https://www.dhs.wisconsin.gov/testing>

PREVENTION

# COVID CLEANING

COVID is spread most effectively through person to person interactions, but has been spread through infected surfaces.

## Cleaning and Disinfecting after a confirmed COVID-19 case

### How to Clean and Disinfect:

If surfaces are dirty, clean surfaces using a detergent or soap and water before disinfection.

#### HARD SURFACES

- For disinfection, clean surfaces using diluted household bleach solutions, alcohol solutions with at least 70% alcohol, or most common EPA-registered household disinfectants.
- Use diluted household bleach solutions. Follow manufacturer's instructions for application and proper ventilation.
- Make sure the product is not expired.
- Never mix household bleach with ammonia or any other cleanser.

#### SOFT (POROUS) SURFACES

- Remove visible contamination if present and clean with appropriate cleaners indicated for use on soft surfaces.
- Launder items following the manufacturer's instructions.
- If possible, launder items using the warmest water setting for the items and dry items completely.
- If you cannot launder items, use EPA-registered products for emerging viral pathogens that work for soft surfaces.

## What to clean: Frequently touched surfaces

- Doorknobs
- Light switches
- Credit card machines
- Keyboards

# PRECAUTIONARY METHODS

Stay home when  
sick

Masking employees  
and patrons

Hand sanitizer  
stations

Cleaning Protocols

25%

Limit number of  
patrons to 25%  
capacity

Space out and stay  
6 ft apart

# NEW DEVELOPMENTS

## VACCINE

Two vaccines are close to being ready.

1. Pfizer vaccine- submitted to the FDA for approval.

2. Moderna vaccine- about 2 weeks behind the Pfizer vaccine.

The start of vaccination: will be distributed in tiers

First tier is frontline healthcare workers

# COVID-19 VACCINATION: Planning in Action

*Executive Summary – October 26, 2020*

<https://www.dhs.wisconsin.gov/publications/p02813.pdf>

## RE-INFECTION

Available data at this time suggests a degree of immunity for 90 days

Previous positives that were exposed do not need to complete a quarantine within 90 days of original positive

Once completed isolation, does not need a negative test to return to work

Reinfections are rare but have been seen

### Still continue to:

- Social distance
- Wear a mask properly
- Wash hands regularly

# ISOLATION VS. QUARANTINE

# ISOLATION

SEPERATING A PERSON **WITH** COVID-19 FROM THOSE WHO ARE HEALTHY

## ISOLATION GUIDELINES

10 DAYS SINCE SYMPTOM ONEST

24 HOURS FEVER-FREE  
w/o fever reducing meds

OTHERS SYMPTOMS IMPROVING

# ISOLATION

## WHAT DOES IT MEAN?

STAY  
HOME

DON'T  
GO TO  
SCHOOL  
OR  
WORK

DON'T GO  
ANYWHERE

SEPARATE  
YOURSELF

POSTPONE  
NON  
ESSENTIAL  
APPOINTMENTS

# WHEN DOES ISOLATION END?

October						
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

Onset = Day 0

10 days of isolation

Last day of isolation

Return to work

# QUARANTINE

SEPERATING A PERSON **EXPOSED** TO COVID-19 FROM OTHERS WHO HAVE NOT BEEN EXPOSED

## WHAT'S A CLOSE CONTACT?

Were within 6 ft of someone positive for more than 15 min

Direct contact i.e kiss, hug or handshake

Contact with someone else's secretions

Stayed overnight with someone positive

## QUARANTINE GUIDELINES W/O SYMPTOMS

14 days from last exposure

Stay home

Avoid contact with anyone

## QUARANTINE GUIDELINES W/ DEVELOPING SYMPTOMS

Get tested for COVID

IF NEGATIVE

14

Still need to complete 14  
quarantine

IF POSITIVE or SYMTOMATIC

10

Complete isolation for  
10 days

# WHEN DOES QUARANTINE END WITH NO SYMPTOMS?

October						
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

14 days after exposure  
 A NEGATIVE TEST DOES NOT LET PATIENT OUT OF QUARANTINE

Patient last day of exposure

Patient 14 day quarantine

Patient can return to work date

# COVID ILLNESS TIMELINE

Day 1

Patient was exposed to COVID-19

Day 5

Patient felt well and tested negative for COVID-19

Day 8

Patient went to work

Day 10

Patient developed symptoms and tested positive for COVID-19

# WHEN DOES QUARANTINE TURN INTO ISOLATION?

October						
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

Patient in close contact

Patient original 14 day quarantine

Patient can return to work date

Patient tests positive for COVID

Patient new 10 day isolation
